Two 60-90 min Group sessions per month.
One private session per person per month.

Group coaching is a new and growing coaching option that allows organizations to provide meaningful leadership development to individuals at an affordable rate. In group coaching, a certified Master Coach works with a group of people (between 4 and 12) for six months using a combination of group and individual coaching sessions with the goal of improving individual and group performance. In addition to improved individual performance, the experiential nature of group sessions helps leaders of various organizational departments or divisions learn more about each other leading to greater intra-organizational cooperation and improved operations.

Group sessions are expected to be in a safe location (yours or ours) and in person. Ideally, personal coaching sessions are held in person, but may be conducted via telephone depending on coachees' schedules. Each group session begins with discussion of a theme for about 10 -15 minutes, and then shifts to experiential/participative coaching for 60-90 minutes total.

Monthly group coaching themes may include: Vision (Personal and Organizational); Communication; Managing Time; People Skills (Building Relationships); Leading vs. Managing; Business Ethics; Basic Leadership Skills; Culture; Leading Change; Power & Politics; Coaching vs. Mentoring; Motivation; etc.

We offer several options for investing in a group coaching program for your organization. Call us for more details.
